

Medicolegal Aspects of Marijuana, Colorado Edition

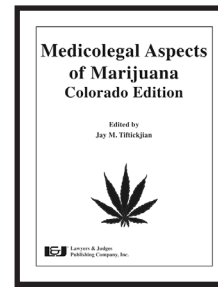

Edited by Jay M. Tiftickjian

Medicolegal Aspects of Marijuana: Colorado Edition is the hands-down indispensable textbook for attorneys, judges, legislators, and individuals involved in the business of medical and recreational cannabis.

The burgeoning field of marijuana-related litigation in Colorado touches many areas of law, from criminal prosecution, to motor vehicle accidents, to real estate transactions, to business regulation, and to taxation issues. The medicolegal aspects of marijuana are complex topics because so many different components are present in marijuana-related criminal, civil, and administrative litigation.

Forensic marijuana analysis is a new area for most attorneys. It is extremely important that THC analyses be performed accurately and correctly and that the results are properly interpreted. Often, results are deemed meaningless because samples are mishandled, equipment is incorrectly calibrated, or results are incorrectly reported.

The wealth of information presented in this book makes it an invaluable resource when investigating and litigating cases involving marijuana.

Chapters include:

- A Brief History of Marijuana Legislation in Colorado (Jay M. Tiftickjian, Esq.)
- Pharmacology of Marijuana (James T. O'Donnell PharmD, MS, FCP, ABCP, FACN and James J. O'Donnell III MS, PhD)
- Licensing, Regulation, and Enforcement of Medical and Recreational Marijuana Business in Colorado (Jeffrey S. Gard, Esq.)
- Banking and Taxation for the Marijuana Industry (Jim Marty, CPA, ABV, MS and Kyle Walker, MBA)
- Business Regulation and the Enforcement Process for Colorado Marijuana Law (Sean T. McAllister, Esq.)
- Colorado Marijuana Criminal Law and Penalties (Leonard Frieling, Esq.)
- Federal Controlled Substances Laws and Marijuana (Andres R. Guevara, Esq.)
- Driving Under the Influence of Drugs: An Overview of Colorado's Alcohol and Drug-Related Driving Offenses (Jay M. Tiftickjian, Esq.)
- Laboratory Testing Overview of THC (Jeremy Brehmer, Esq.)
- Are THC Concentrations Appropriate For Presuming Psychomotor Impairment? (Paul Armentano)
- Land Use, Real Estate, Landlord/Tenant and HOA Issues (Bill E. Kyriagis, Esq.)
- Under the Influence of Marijuana (John P. Bederka, Jr., Ph.D. and Warren Cooper)
- Appendix: Relevant Colorado Statutes and Regulations Concerning Marijuana

Carrutt's Medicolegal Aspects of Alcohol, Sixth Edition
Edited by Yale H. Caplan, Ph.D. and Bruce A. Goldberger, Ph.D.,

Now available in its Sixth Edition, *Carrutt's Medicolegal Aspects of Alcohol* is the hands-down indispensable textbook for anyone involved with the medicolegal aspects of alcohol, including attorneys and forensic toxicologists. Alcohol-related litigation typically pertains to arrests of drinking drivers, but also includes industrial accidents, public transport accidents, and violent crimes. Forensic alcohol analysis is the most frequently performed of all forensic laboratory tests. This sixth revised edition provides you with up-to-date and authoritative information on alcohol in all aspects of its involvement in the forensic sciences. The wealth of information presented in this book makes it the quintessential reference for the alcohol toxicology practitioner and the alcohol researcher. **#0889-F 8.5" x 11", Hardcover, 720 pages – Price \$199**

Drug Injury: Liability, Analysis and Prevention, Third Edition
Edited by James T. O'Donnell,

This easy to follow book is one of the most complete of its kind. It is divided, for ease of use, into three sections concerning different aspects of drug injury. The first section details the pharmaceutical process, covering liability of pharmaceutical companies, warning labels and clinical trials. The second section examines high-risk drug therapies that result in pharmaceutical litigation. The third section of the book details the role of the professional pharmacist and related malpractice claims. It also includes appendices of FDA regulations relating to drug product liability, guidance for industry, use of risk minimization plans, and FDA pregnancy classifications. You'll find this text indispensable for the comprehensive information it provides on the pharmaceutical industry. **#6044-F 8.5" x 11", Hardcover, 896 pages – Price \$199**

Medical-Legal Aspects of Drugs, Second Edition
By Marcelline Burns, Ph.D., M.S., Pharm.D.,

Drug use is at least as long-standing as recorded history. As predicted in the first edition of *Medical-Legal Aspects of Drugs*, drug use continues to be a problem but there have been significant changes. Drugs of choice and use trends have changed and new issues have surfaced. Drug options have expanded with the discovery and re-discoveries of intoxicating plant materials and the development of new compounds in both legal and illegal laboratories. *Medical-Legal Aspects of Drugs* addresses the challenge of this dynamic and pervasive problem with accurate, cutting-edge information from acknowledged experts. You will learn about diverse drug topics including illegal drugs, prescription drugs, drug use in the workplace or school, doping by athletes, and drug use and criminal activity. The contributors to *Medical-Legal Aspects of Drugs* offer an international, as well as an American perspective, and much of their knowledge is currently available as written materials only in this text. **#6192-F 8.5" x 11", Hardcover, 255 pages – Price \$99**
